

DISINFECT

ANTIBACTERIAL DEODORISING DETERGENT

ActiveEco Disinfect – Forest Eucalypt is an antibacterial all-purpose detergent ideal for the cleaning and sanitising of bacteria-sensitive areas where odour control is an issue, such as:

- Sick bays
- Hospital wards
- Change rooms
- Schools
- Kitchens
- Restaurants
- Wash rooms
- Refuse areas
- Kennels

It utilises a combination of bacteria-destroying germicides and a pleasant perfume to effectively deodorise and freshen a wide variety of areas. **ActiveEco Disinfect** makes an all-around cleaner for all hard surfaces. It removes the bad odour-generating bacteria rather than masks them.

Applications

ActiveEco Disinfect is a versatile product that cleans, sanitises and deodorises:

- Toilets
- Urinals
- Baths
- Basins
- Sinks
- Sluices
- Showers
- Bed pans
- Walls
- Floors

Benefits

- **Antibacterial** – Efficiently kills a wide spectrum of bacteria (Commercial Disinfectant Grade), including organisms such as pseudomonas, Escherichia coli and staphylococcus aureus.
- **Potentiated** – Contains an effective surfactant and wetting agent, which enhances the ability of the sanitiser to effectively penetrate and destroy the bacteria.
- **Deodorises** – Has a fresh, lingering crisp forest pine fragrance with a touch of eucalyptus.
- **Versatile** – Cleans and sanitises in one operation.
- **QAC-based** – Based on a QAC-type disinfectant (Alkyl benzyl ammonium chloride – sometimes known as benzylkonium chloride).
- **Surface-safe** – Safe to use on all types of floors, whether sealed or not. Will not dull polished flooring.
