

# EnduroShield

Cuts cleaning time

easy clean surface treatments  
glass, tile & grout, stainless steel & chrome

## Make Cleaning Easy

EnduroShield is a revolutionary invisible treatment that repels water, soap scum and grime, allowing you easier cleaning less often. Water will bead on the surface, demonstrating EnduroShield's repellent nature, and similar to a non-stick fry pan cleaning time is noticeably reduced. EnduroShield works on new and existing surfaces.

### Makes cleaning a breeze

- A regular wipe over with a microfiber cloth is all it takes, no more scrubbing

### Superior protection

- Against the corrosive effects of soap scum, dirt, grime, lime scale, salt, chemicals, and hard water

### Reduces cleaning time

- By up to 90%

Stays cleaner for longer, in between cleans

### Product Options

- Factory or professional application to new glass: 10 year performance warranty.
- Professional application to new and existing tile or stainless steel surfaces: Up to 5 year warranty.
- Consumer strength formula DIY kits are available for glass, tile & grout, and stainless steel surfaces. One single application lasts 3+ years: 3 year warranty

**TIME**

TIME Magazine Ranks EnduroShield in TOP 10 most compelling smartest gadgets trying to save the world. July 7 2014 Edition

“We’ve tried many on Kitchen Crashers and the one I think works best is EnduroShield”

Ask a crusher... HGTV Magazine Jul/Aug 2014 Edition

## Option 1: EnduroShield - Professionally applied

The professional strength glass coating is a professionally applied product that creates a permanent\* bond with the glass, and comes with a 10-year performance warranty to new glass.

The largest glass fabricators and manufacturers around the world rely on EnduroShield as the industry-leading solution. To order, simply request EnduroShield be factory or professionally applied to your new glass.

In addition professional application services are available for pre-installed glass, tile & grout, and stainless steel.

## Option 2: EnduroShield Home - DIY kits

The consumer strength Do-It-Yourself coating range is easy to apply and comes complete with cleaner, AND protective coating. EnduroShield Home coatings are simply sprayed on and wiped into a clean surface!

EnduroShield Home DIY Kits

EnduroShield for glass has been awarded certification from TÜV Rheinland Germany for both durability and easy to clean functionality. The durability test was carried out to simulate a lifetime of 10 Years on interior and exterior use. A certified product is one that has passed extensive testing carried out by TÜV Rheinland Group, including safety and quality.

TÜV's testing provides our customers and the general public quantifiable evidence of performance from one of the world's most prestigious independent international testing and safety agencies.

- Easy to clean
- Durability tested

\* Independently tested and certified for durability to simulate a lifetime of 10 years on interior and exterior use by TÜV Rheinland.

EnduroShield® leads the industry in both water and oil repellent coatings, which provides maximum protection against staining. When professionally applied, EnduroShield provides a true performance warranty, that it will remain water repellent with a bead angle greater than 70 degrees, which we accept as a minimum measurement for an easy to clean surface.

Some professionally applied coatings claim they will last the distance, but only warrant that they will remain more water repellent than untreated glass. Untreated glass is measured at a low angle of approximately 15 degrees. These coatings therefore do not hold themselves to a minimum water repellency measurement.

These coatings often require unrealistic daily cleaning tasks to be performed or revitaliser products to be purchased in order to maintain the coating and the warranty. **This is why** not all products and warranties are the same. EnduroShield does not sell after care products because they are not required to maintain performance. These are some of the many reasons why the largest glass providers choose to offer EnduroShield to their customers.
