

CGA REMOVER

CARBON, GUM, & ADHESIVE REMOVER

Maximum Power Industrial Solvent

Purasolve CGA Remover provides extreme performance without the risks. It is a safe, sustainable, and effective solvent designed to replace toxic and dangerous workplace chemicals.

- Plant-based solvent
- Potent, heavy-duty formulation
- Low evaporation
- Removes most difficult staining including inks and bitumen
- Non-toxic
- Non-reactive
- Reusable
- Environmentally responsible

Applications

Purasolve CGA Remover is formulated to tackle heavy-duty cleaning jobs and loosen hardened hydrocarbons without damaging most elastomeric, metal, and plastic surfaces.

It effectively removes:

- Gum
- Adhesives
- Epoxy
- Silicone
- Bitumen
- Dried lubricants and fuels
- Graffiti
- Wax
- Urethane sealants
- Latex
- Inks

Benefits

- Non-hazardous - has no HazChem rating and is classed as non-hazardous according to the criteria of NOHSC and Worksafe Australia
- Non-dangerous - is not classified as dangerous according to the Australian Dangerous Goods Code for transport. It is non-reactive and is storage-stable.
- Sustainable - derived from renewable resources and is reusable for several weeks, reducing waste
- Eco-Friendly - 100% readily biodegradable. It is a low-evaporation product and does not contain ozone-depleting chemicals.
