

PRECISION CLEANER

WORK SAFE ELECTRICAL CONTACT CLEANING SOLVENT

Safety Solvent

Purasolve Precision Cleaner is a non-explosive, low-hazard electrical contact cleaner and residue-free safety solvent for precision cleaning applications.

Its slow evaporation allows longer dwell time, improving cleaning results with significantly less solvent usage.

Purasolve Precision Cleaner is a high-tech electrical contact safety solvent that lasts 10 times longer than other solvents.

Does not contain...

- Ozone-depleting substances
- Sulphonics or phenolics
- Glycol ethers
- Builders or reagents
- Caustics
- Synthetics
- Aldehydes

Benefits

- Removes flux and does not harm conformal coatings
- Eliminates the risk of handling and use of explosive and high toxic chemicals
- Improved user safety and comfort with low odour and high flash point
- Reduces your environmental footprint through reducing VOC emissions
- Reduces the risk and costs of cross-contamination from hazardous solvents
- No residue from high evaporation levels, eliminating the need for re-cleaning
