

ENVIROCOIL

POWERFUL BIO-BASED COIL CLEANER

Bio-based Cleaner and Degreaser

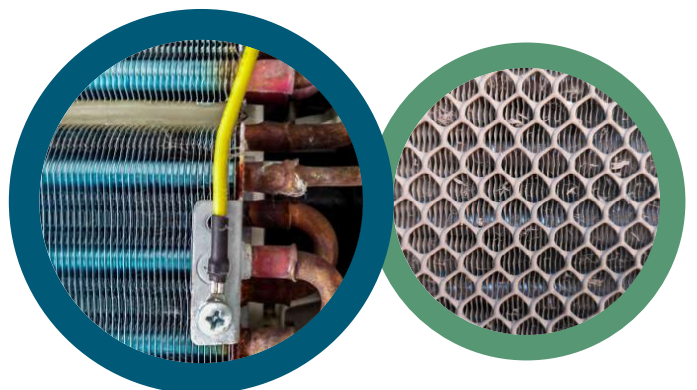

Triple7 Envirocoil is a powerful bio-based, non-toxic and non-hazardous product especially designed to remove heavy deposits and mould growth on coils & HVAC systems.

Triple7 EnviroCoil is free of:

- caustics
- phosphates
- strong acids
- petroleum products
- terpenes
- glycol ethers
- ammonium compounds

BENEFITS

- High-performance
- Protects cleaning surface
- Non-corrosive
- Easier maintenance - allows CIP cleaning
- Non-toxic
- Non-hazardous
- Non-flammable
- Cost-saving and highly concentrated
- Readily biodegradable

ENVIROCOIL

POWERFUL BIO-BASED COIL CLEANER

Method of Application

Switch off power. For health and safety reasons, never attempt cleaning a coil with visible mould growth, unless you are suitably qualified.

Ensure condensate tray is draining.

Gently remove heavy deposits from the coil surfaces with a vacuum fitted with a high-efficiency filter and brush attachment.

Spray diluted **Triple7 EnviroCoil** directly into both sides of the coil. Ensure that **Triple7 EnviroCoil** gets deep into the coil.

Never use high pressure water across the face of the coil. Only spray directly into coil.

Wait five minutes then rinse coil thoroughly with high pressure water directly into both sides of coil.

Heavily fouled coils may require additional attempts to achieve the desired results - aim to restore maximum airflow capacity, rather than to make the fins shiny.

Part No #	Description	Size
AAECOI-5	Triple7 Envirocoil	5 Litre
AAECOI-20	Triple7 Envirocoil	20 Litre
AAECOI-200	Triple7 Envirocoil	200 Litre
AAECOI-BB	Triple7 Envirocoil	1000 Litre
